BIO

Originally from the south of France, Tommy Glasses is now one of the rising figures among DJs of his generation. Born in 1999, Tommy grew up under the musical and professional influence of his father, who is also a DJ. It was at the age of 14 that his passion and interest in music production began to develop. He started locking himself in his teenage bedroom to remix famous tracks. Three years later, his first track was signed.

This was followed by a series of productions released by numerous labels such as Toolroom Records, Nervous Records, King Street Sounds, Milk & Sugar, Tinted Records, Imagenes Records, and many more. Although his musical tastes are distinctly oriented towards Disco House, Tommy has managed to stand out by bringing his own groovy touch inspired by the 80s to each of his productions. This personal signature is subtly woven into beautiful tracks that are now played by DJs from the international scene or radio stations from the French Riviera to London, passing through Saint Barth...

In 2019, a new collaboration began between the young DJ and the famous Radio FG. As a DJ, he also started spinning records very early on and began mixing at the age of 14. He secured his first residency at 18 and has been a resident at several establishments in St Barth since 2020.

He performs under his artist name at clubs and festivals to showcase his new tracks and share his sunny vibe that appeals to all generations.
